Contents at a Glance

Introduction	1
Part 1: Getting Started with Data Analysis	5
CHAPTER 1: Learning Basic Data-Analysis Techniques	7
CHAPTER 2: Working with Data-Analysis Tools	31
CHAPTER 3: Introducing Excel Tables	55
CHAPTER 4: Grabbing Data from External Sources	77
CHAPTER 5: Analyzing Table Data with Functions	99
Part 2: Analyzing Data Using PivotTables and PivotCharts	113
CHAPTER 6: Creating and Using PivotTables	115
CHAPTER 7: Performing PivotTable Calculations	137
CHAPTER 8: Building PivotCharts	161
Part 3: Discovering Advanced Data-Analysis Tools	181
CHAPTER 9: Dealing with Data Models	183
CHAPTER 10: Tracking Trends and Making Forecasts	203
CHAPTER 11: Analyzing Data Using Statistics	227
CHAPTER 12: Analyzing Data Using Descriptive Statistics	245
CHAPTER 13: Analyzing Data Using Inferential Statistics	261
Part 4: The Part of Tens	279
CHAPTER 14: Ten Things You Ought to Know about Statistics	281
CHAPTER 15: Ten Ways to Analyze Financial Data	293
CHAPTER 16: Ten Ways to Raise Your PivotTable Game	303
Appendix: Glossary of Data Analysis and Excel Terms	317
Index	327

Table of Contents

INTRODUCTION	1
About This Book	1
What You Can Safely Ignore	2
Foolish Assumptions	2
Icons Used in This Book	3
Beyond the Book	3
Where to Go from Here	4
 PART 1: GETTING STARTED WITH DATA ANALYSIS	 5
CHAPTER 1: Learning Basic Data-Analysis Techniques	7
What Is Data Analysis, Anyway?	8
Cooking raw data	8
Dealing with data	8
Building data models	9
Performing what-if analysis	9
Analyzing Data with Conditional Formatting	9
Highlighting cells that meet some criteria	10
Showing pesky duplicate values	11
Highlighting the top or bottom values in a range	13
Analyzing cell values with data bars	14
Analyzing cell values with color scales	15
Analyzing cell values with icon sets	16
Creating a custom conditional-formatting rule	17
Editing a conditional-formatting rule	20
Removing conditional-formatting rules	21
Summarizing Data with Subtotals	22
Grouping Related Data	24
Consolidating Data from Multiple Worksheets	26
Consolidating by position	26
Consolidating by category	28
 CHAPTER 2: Working with Data-Analysis Tools	 31
Working with Data Tables	32
Creating a basic data table	32
Creating a two-input data table	34
Skipping data tables when calculating workbooks	37
Analyzing Data with Goal Seek	37
Analyzing Data with Scenarios	39
Create a scenario	40
Apply a scenario	42

Edit a scenario	42
Delete a scenario	43
Optimizing Data with Solver	43
Understanding Solver	43
The advantages of Solver	44
When should you use Solver?	44
Loading the Solver add-in	46
Optimizing a result with Solver	47
Adding constraints to Solver	50
Save a Solver solution as a scenario	52
CHAPTER 3: Introducing Excel Tables	55
What Is a Table and Why Should I Care?	55
Building a Table	57
Getting the data from an external source	58
Converting a range to a table	58
Basic table maintenance	60
Analyzing Table Information	61
Displaying simple statistics	61
Adding a column subtotal	63
Sorting table records	64
Filtering table records	67
Clearing a filter	68
Turning off AutoFilter	68
Applying a predefined AutoFilter	69
Applying multiple filters	71
Applying advanced filters	72
CHAPTER 4: Grabbing Data from External Sources	77
What's All This about External Data?	77
Exporting Data from Other Programs	79
Importing External Data into Excel	80
Importing data from an Access table	80
Importing data from a Word table	81
Introducing text file importing	82
Importing a delimited text file	83
Importing a fixed-width text file	84
Importing data from a web page	86
Importing an XML file	88
Querying External Databases	90
Defining a data source	91
Querying a data source	94

CHAPTER 5: Analyzing Table Data with Functions	99
The Database Functions: Some General Remarks	100
Retrieving a Value from a Table	101
Summing a Column's Values	102
Counting a Column's Values	104
Averaging a Column's Values	105
Determining a Column's Maximum and Minimum Values	106
Multiplying a Column's Values	108
Deriving a Column's Standard Deviation	109
Calculating a Column's Variance	110
 PART 2: ANALYZING DATA USING PIVOTTABLES AND PIVOTCHARTS	 113
CHAPTER 6: Creating and Using PivotTables	115
Understanding PivotTables	116
Exploring PivotTable Features	118
Building a PivotTable from an Excel Range or Table	119
Creating a PivotTable from External Data	122
Building a PivotTable from Microsoft Query	122
Building a PivotTable from a new data connection	123
Refreshing PivotTable Data	125
Refreshing PivotTable data manually	125
Refreshing PivotTable data automatically	125
Adding Multiple Fields to a PivotTable Area	126
Pivoting a Field to a Different Area	127
Grouping PivotTable Values	128
Grouping numeric values	128
Grouping date and time values	129
Grouping text values	130
Filtering PivotTable Values	131
Applying a report filter	131
Filtering row or column items	132
Filtering PivotTable values	133
Filtering a PivotTable with a slicer	134
 CHAPTER 7: Performing PivotTable Calculations	 137
Messing around with PivotTable Summary Calculations	138
Changing the PivotTable summary calculation	138
Trying out the difference summary calculation	140
Applying a percentage summary calculation	142
Adding a running total summary calculation	144
Creating an index summary calculation	147

Working with PivotTable Subtotals	149
Turning off subtotals for a field	149
Displaying multiple subtotals for a field	149
Introducing Custom Calculations	151
Formulas for custom calculations	151
Checking out the custom calculation types	152
Understanding custom calculation limitations	152
Inserting a Custom Calculated Field	154
Inserting a Custom Calculated Item	155
Editing a Custom Calculation	157
Deleting a Custom Calculation	158
CHAPTER 8: Building PivotCharts	161
Introducing the PivotChart	161
Understanding PivotChart pros and cons	162
Taking a PivotChart tour	163
Understanding PivotChart limitations	164
Creating a PivotChart	165
Creating a PivotChart from a PivotTable	165
Embedding a PivotChart on a PivotTable's worksheet	165
Creating a PivotChart from an Excel range or table	166
Working with PivotCharts	169
Moving a PivotChart to another sheet	169
Filtering a PivotChart	170
Changing the PivotChart type	172
Adding data labels to your PivotChart	173
Sorting the PivotChart	174
Adding PivotChart titles	175
Moving the PivotChart legend	177
Displaying a data table with the PivotChart	178
PART 3: DISCOVERING ADVANCED DATA-ANALYSIS TOOLS	181
CHAPTER 9: Dealing with Data Models	183
Understanding Excel Data Models	184
Creating a relationship between tables	186
Importing related external data tables	187
Basing a PivotTable on multiple, related tables	189
Managing a Data Model with Power Pivot	192
Enabling the Power Pivot add-in	192
Adding a table to the Data Model	193
Importing related tables from an external data source	193
Viewing table relationships	195

Viewing relationship details.....	196
Creating a relationship between tables with Power Pivot.....	197
Transforming Data	199
Creating a PivotTable or PivotChart from Your Data Model.....	200
CHAPTER 10: Tracking Trends and Making Forecasts.....	203
Plotting a Best-Fit Trend Line.....	204
Calculating Best-Fit Values.....	206
Plotting Forecasted Values.....	208
Extending a Linear Trend.....	210
Extending a linear trend using the fill handle.....	211
Extending a linear trend using the Series command.....	211
Calculating Forecasted Linear Values.....	212
Plotting an Exponential Trend Line.....	214
Calculating Exponential Trend Values	216
Plotting a Logarithmic Trend Line.....	218
Plotting a Power Trend Line.....	220
Plotting a Polynomial Trend Line	222
Creating a Forecast Sheet	223
CHAPTER 11: Analyzing Data Using Statistics	227
Counting Things.....	228
Counting numbers	228
Counting nonempty cells	229
Counting empty cells.....	229
Counting cells that match criteria.....	229
Counting cells that match multiple criteria	230
Counting permutations	231
Counting combinations	232
Averaging Things.....	233
Calculating an average	233
Calculating a conditional average.....	233
Calculating an average based on multiple conditions.....	234
Calculating the median.....	235
Calculating the mode	235
Finding the Rank	236
Determining the Nth Largest or Smallest Value	238
Calculating the nth highest value	238
Calculating the nth smallest value	239
Creating a Grouped Frequency Distribution.....	240
Calculating the Variance.....	241
Calculating the Standard Deviation	242
Finding the Correlation.....	243

CHAPTER 12: Analyzing Data Using Descriptive Statistics	245
Loading the Analysis ToolPak	246
Generating Descriptive Statistics	247
Calculating a Moving Average	250
Determining Rank and Percentile	253
Generating Random Numbers	255
Creating a Frequency Distribution	258
CHAPTER 13: Analyzing Data Using Inferential Statistics	261
Sampling Data	262
Using the t-Test Tools	264
Performing a z-Test	267
Determining the Regression	269
Calculating the Correlation	271
Calculating the Covariance	273
Using the Anova Tools	274
Performing an f-Test	276
PART 4: THE PART OF TENS	279
CHAPTER 14: Ten Things You Ought to Know about Statistics	281
Descriptive Statistics Are Straightforward	282
Averages Aren't So Simple Sometimes	282
Standard Deviations Describe Dispersion	283
An Observation Is an Observation	285
A Sample Is a Subset of Values	285
Inferential Statistics Are Cool But Complicated	285
Probability Distributions Aren't Always Confusing	287
Uniform distribution	287
Normal distribution	288
Parameters Aren't So Complicated	289
Skewness and Kurtosis Describe a Probability Distribution's Shape	289
Confidence Intervals Seem Complicated at First But Are Useful	291
CHAPTER 15: Ten Ways to Analyze Financial Data	293
Calculating Future Value	294
Calculating Present Value	295
Determining Loan Payments	296
Calculating a Loan Payment's Principal and Interest	297
Calculating Cumulative Loan Principal and Interest	297
Finding the Required Interest Rate	298
Determining the Internal Rate of Return	299

Calculating Straight-Line Depreciation.....	300
Returning the Fixed-Declining Balance Depreciation.....	300
Determining the Double-Declining Balance Depreciation.....	301
CHAPTER 16: Ten Ways to Raise Your PivotTable Game.....	303
Turn the PivotTable Fields Task Pane On and Off	304
Change the PivotTable Fields Task Pane Layout.....	304
Display the Details Behind PivotTable Data	306
Apply a PivotTable Style	308
Create a Custom PivotTable Style	309
Preserve PivotTable Formatting	311
Rename the PivotTable.....	312
Turn Off Grand Totals.....	312
Reduce the Size of PivotTable Workbooks.....	314
Use a PivotTable Value in a Formula	314
APPENDIX: GLOSSARY OF DATA ANALYSIS	
AND EXCEL TERMS	317
INDEX.....	327
